

# ANGELA ZUBA **RESTAURATEUR AND VINTNER**

**Waters Edge Winery** is a passion for Angela. As someone who loves wine and loves to cook, she has built the business based on a philosophy of inclusion and empowerment. The team at Waters Edge is very involved in the business and relies on each other. With a passion for cooking, Angela and her team love to experiment with food and wine pairings and if a team member creates a dish, that person gets to name it. The menu offers a selection of fresh made-to-order comfort foods with unexpected nuances. Such as the DylBano Pressed Sandwich where champagne mustard dresses the classic Cubano.

The winery features 40 varieties of reds, whites, sweet wine, dessert wine and smoked wine (only available at Waters Edge) available by the glass or bottle. The grapes are sourced from all over the world through a global network of grape-sourcing professionals who travel to different countries.

Waters Edge is a fun and welcoming place for the community. They host murder mystery parties, cookie-making classes, live music, trivia night and more. As Angela says, "the answer is always yes."

"Exploring new food and wine pairings is a passion of mine which I love sharing with others."

## **ANGELA'S THREE FAVORITE THINGS ABOUT KALISPELL:**

- ① The people. We have found such good people in Kalispell, not like anywhere else in the world.
- ② The weather. I like four seasons and particularly like that it isn't windy.
- ③ The beauty of the landscape. Watching a sunrise and sunset over a mountain range, it doesn't get better than that.

## **HOW DO YOU SPEND A FREE AFTERNOON?**

What free afternoon? In summer I would be on the water, in the winter I enjoy cooking and creating new menu items.

## **INSIDER TIP FOR VISITORS:**

Get off the beaten path, find the small things.
